[1.0] Defeat the Terrorists and Neutralize the Insurgents - Developments

Foreign Fighter Facilitator Killed:

- Coalition forces killed on October 8 a known al Qaeda in Iraq member near Fallujah before he could activate a suicide bomb strapped to his body. Abu Sarmad had facilitated transportation and housing for foreign fighters and suicide bombers who had been smuggled into Iraq through Syria. Additionally, he received support and guidance from Saudi Arabian extremist financiers and was believed to be a major link for supporting terrorist activity between al Qaeda in Iraq in Baghdad and the Western Euphrates River Valley. Coalition assault forces shot Abu Sarmad before he could activate the explosives strapped around his torso. Eight additional individuals were detained during the operation.

Iraqi, Coalition Operations Net Terror Suspects, Weapons:

- Iraqi and Coalition Forces continued to aggressively pursue terrorists in Baghdad by capturing 34 terror suspects and seizing bomb making materials and weapons caches during more than 50 raids and searches October 9. Iraqi Army and Iraqi Police units completed seven of the combat operations independently, and took the lead on two others, working side by side with Coalition Forces.

- The USAID constitutional awareness program and its 250 partner NGOs have introduced over 58,000 Iraqis to the constitution, educating them prior to the referendum.
- On October 5, Iraqi lawmakers reversed a controversial rule change that would have made it more difficult for opponents of the country's draft constitution to vote it down in a nationwide referendum.
- Farid Ayar, spokesman for the Independent Electoral Commission of Iraq, said about 10,000 detainees held in US and Iraqi-run jails would be authorized to exercise their democratic right to vote.

[8.0] Strengthen Public Understanding of Coalition Efforts and Public Isolation of the Insurgents – **Developments**

Strategic Communications:

- The Iraq International Visitor program is now the third largest in the world – after Russia and China. This is noteworthy given the difficult reality the Embassy Baghdad Cultural Section and the participants face every day. These challenges exist in no other country, not even in Afghanistan. The Embassy's Public Diplomacy section implements this program at post, and are supported by many other Embassy Baghdad sections whether in nominating excellent candidates or in doing all the essential work needed to process these people in an expeditious manner.
- A two-day seminar in Ramadi, conducted by USAID partner, the National Democratic Institute (NDI), allowed influential members of the Sunni community to examine constitution while encouraging their participation in the October 15 referendum. Participants included senior Sunni government officials, Governorate Council Members, lawyers, and religious leaders.
- On September 28, the National Democratic Institute (NDI) led a training session on media and party message development for four members of SCIRI's media department. The training focused on the importance of sticking to a message and how to develop an overall plan for the party's message. The party requested further media training with a specific focus on television appearances and public speaking. On September 27, NDI also conducted a party consultation on media to review the Assyrian Democratic Movement's (ADM) media planning strategy.

- The chart shows average daily power production in megawatt hours (MWH). 120,000 MWH goal equates to 20 hours at 6000 MW average supplied load or 24 hours at 5000 MW average supply load. Currently supplies are not much improved over last year when judged by hours of power, but this is due in part to an influx of new appliances. This has dramatically altered demand and diluted the effect of increased generation capacity on actual results.
